

THE HISTORY OF MASKANDI
A documentary tracing the roots of
Zulu Maskandi Culture

Proposal

The project will involve a team of research and development administrators to trace the history of Maskandi. Through R& D we will identify Maskandi artists, both old and emerging. As maskanda has origins dating far back, even further than the 60's, a team of Interviewers will be going out to rural areas and communities interviewing community members and elders to have a wide and varied view of the culture behind the music. Artists will be recorded and musicians will be invited to participate in the making of the documentary. Areas covered will be Zululand region.

Budget

We are looking at a budget of R2 000 000.00 to complete our project. This budget is inclusive of script writing, narration, film crew, lighting, sound, R& D, accommodation and travel expenses.
