Reference Number:	SITA/20250610/2346
BPS Vacancy Number:	VAC00880/26
Job Title:	Software Developer
Job Level:	C5
Vacancy Type:	Internal & External
Salary Range:	R478420.00 - R717630.00
Organisation Name:	State Information Technology Agency
Division:	ADM: Exec Apps Development & Maintain
Department:	ADM: Digital Services
Employment Type:	Contract
Contract Duration:	24-Months Fixed Term Contract
Location:	Centurion
Number Of Openings:	1

Purpose of Job:

To research, design, install, test and maintain and enhance software systems write and coding of individual programmes in accordance with ICT standards and the enterprise architecture for Government.

Responsibilities:

- Develop/Design software or customize software for client use with the aim of optimizing operational efficiency using SITAs software development stack / development framework.
- Coordinate software system installation and monitor equipment functioning to ensure specifications are met.
- Produce detailed specifications and write the programme codes.
- Maintain the integrated IT software components systems once they are up and running.
- Develop integrated Technical Service Specifications for single or multiple software components to clearly set direction for procuring or building software components.

Qualifications and Experience:

Required Qualification: 3 Year Diploma / Degree in ICT (Computer Science, Information Systems, Technology and Engineering) or related field.

Experience: 3 - 5 years' experience development lifecycle (SLDC), including solution development, operational responsibility in a large corporate/public sector organisation. The experience must include: Experience in solution analysis, and development for the development, implementation and maintenance/enhancements of systems

within the corporate/public sector, including:

- Successfully developed and implemented applications
- Software development team leadership competency
- Software development deliverable effort planning, estimations and execution management
- Developed efficient and effective IT solutions to diverse and complex business problems.
- Extensive experience with a wide variety of database management systems and maintenance.
- Extensive experience with a wide variety of programming languages and technologies.
- Extensive experience with working on multiple tasks and report status. Experience in interacting with customers.

Technical experience: Comprehensive knowledge and experience with .NET Framework, one or more of the major programming languages, C#, ASP.NET MVC, HTML. Comprehensive knowledge and experience with one or more of the major database systems, MySQL, MsSQL, Oracle, MS Access, etc Comprehensive Teamworking experience. Strong knowledge of source control and version control tools.

Knowledge:

Understanding of computer science including algorithms, data structures, operating systems and databases. Understanding of the user requirement process. Understand various tools and techniques in identifying functional requirements of software. Knowledge of Governance e.g. Cobit and ITIL Knowledge of the software development process and its technologies Knowledge to design and develop test plans and software simulator to facilitate different levels of testing. Knowledge to report the results of different levels of testing report, the discrepancies between the software and its related documents. Knowledge of design techniques, tools and principles involved in production of precision technical plans, blueprints, drawings and models. Understand the requirements for verification and validation of design documentations, verify and validate different levels of software/system design. Development methodologies (e.g. RUP, OpenUp, Agile), SDLC COTS (Commercial of the Shelf) Products Security (Software and Technologies). Software Development Fundamentals. Software Requirements. Comprehensive knowledge of software testing techniques and tools Comprehensive knowledge and experience with one or more of the major programming languages, HTML and JavaScript Skill, Java, Python, PHP, Net etc. Comprehensive knowledge and experience with one or more of the major database systems, MySQL, MsSQL, Oracle, Mongo, etc Comprehensive Team-working experience

Technical Competencies

Application Development

The specification and design of software to meet defined requirements by following agreed design standards and principles. The definition of software, components, interfaces and related characteristics. The identification of concepts and patterns and the translation into a design which provides a basis for software construction and verification. The evaluation of alternative solutions and trade-offs. The facilitation of design decisions within the constraints of systems designs, design standards, quality, feasibility, extensibility and maintainability. The development and iteration of prototypes/simulations to enable informed decision-making. The adoption and adaptation of software design models, tools and techniques based on the context of the work and selecting appropriately from predictive (plan-driven) approaches or adaptive (iterative/agile) approaches.

Database Administration

The installation, configuration, upgrade, administration, monitoring and maintenance of databases. Pro

Interpersonal and Behavioural Competencies

Attention to Detail

The ability to ensures information is complete and accurate.

Analytical thinking

Identifies issues; obtains relevant information, relates and compares data from different sources, and identifies alternative solutions.

Continuous Learning

The ability to constantly expand one's skill set.

Disciplined

Showing a controlled form of behaviour or way of working, diligently.

Resilience

The ability to effectively handle disappointment, rejection and set-backs while still working well and meeting deadlines.

Stress Management

The ability to keep functioning effectively when under pressure and maintain self control in the adversity.

Additional Requirements

N/A

How to apply

To apply please log onto the e-Government Portal: <http://www.eservices.gov.za/> and follow the following process;

1. Register using your ID and personal information;
2. Use received one-time pin to complete the registration;
3. Log in using your username and password;
4. Click on "Employment & Labour";
5. Click on "Recruitment Citizen" to create profile, update profile, browse and apply for jobs;

Or, if candidate has registered on eservices portal, access <http://www.eservices.gov.za/>, then follow the below steps:

1. Click on "Employment & Labour";
2. Click on "Recruitment Citizen";
3. Log in using your username and password;
4. Click on "Recruitment Citizen" to create profile, update profile, browse and apply for jobs;
